**About Bridgestone:**

*Bridgestone Corporation, headquartered in Tokyo, is the world's largest tire and rubber company. In addition to tires for use in a wide variety of applications, it also manufactures a broad range of diversified products, which include industrial rubber and chemical products and sporting goods. Its products are sold in over 150 nations and territories around the world.*

*In Thailand, Bridgestone has managed to achieve sustainable growth and success through a great confidence from end-users, dealers, and automotive manufacturers since its production 49 years ago. Through our history, the company has shown a great determination to research, invent, and create excellent products that are suitable for domestic use. Additionally, together with well selected raw materials, state-of-the-art production facilities and machines, and highest standard of quality control, these enable Bridgestone to journey on the same path with corporate mission – “Serving Society with Superior Quality.”*
